| | |
|---|---|
| Pair | 0xEf12cf··· |
| Reserves | 328.08 MAX / 143,731.19 tUSDC |
| Price | 1 MAX = 438.0985 tUSDC |
| k = x·y | 47,155,276 |
| Your pool share | 0.000% |

You pay **MAX**

0.0

Balance: 0.406 MAX

↓

You receive (est.) **tUSDC**

0.0

Balance: 993.2917 tUSDC

Enter amount

swapped ✓ tx↗

💡 **Swap** goes through the Router: find the pool → compute getAmountOut (0.3% fee) → send input token into the Pair → pair.swap. Price impact = how far you pushed the x·y=k curve.

Pool

Pool 0 · MAX/tUSDC

| | |
|---|---|
| LP in wallet (stakeable) | 0.003462 LP |
| LP staked | 2.05 LP |
| Pending FARM (+1 per block, live) | 0.011362 FARM |
| FARM in wallet | 89,398.123031 FARM |

Import FARM to MetaMask

**STAKE / WITHDRAW**

0.0 MAX

Amount (leave empty = withdraw all)

**① Approve LP to the farm**

**② Stake LP (deposit)**

**Harvest FARM (keep stake)**

**Withdraw LP (+ harvest)**

**emergencyWithdraw (forfeit rewards)**

Harvested ✅ FARM is in your wallet. Want to take profit? Sell FARM on v2.html

💡 **Tower B, layer 1**: LP token → stake into MasterChef → mine FARM.
· **"Harvest FARM (keep stake)" = deposit(0)**: collect rewards without touching your stake. Then **go to v2.html and sell FARM for stablecoin = farm-and-dump (take profit)**.
· **Keep compounding FARM without cashing out**: FARM is a high-inflation token

# Flash-loan Arb AI Finance · zero-capital

0xd657…7588

Borrow tUSDC with **$0 of your own**, buy MAX on the cheap DEX, sell on the dear DEX, repay — **all in one transaction**. Profit goes to the bot's owner. Over-borrow → the whole tx reverts.

| DEX-cheap (buy MAX) | DEX-dear (sell MAX) |
|---|---|
| 1983.20 | 1996.12 |
| 2,979.4 MAX / 5,908,796 tUSDC | 3,045.4 MAX / 6,078,911 tUSDC |

price gap **0.65%** • lender liquidity **5,000,202** tUSDC

Flash-borrow amount (tUSDC) 🎯 Optimal amount fee 0.05%

1000

| MAX bought (cheap) | tUSDC back (dear) | Must repay | Est. profit |
|---|---|---|---|
| 0.5026 MAX | 1,000 | 1,001 | −0 |

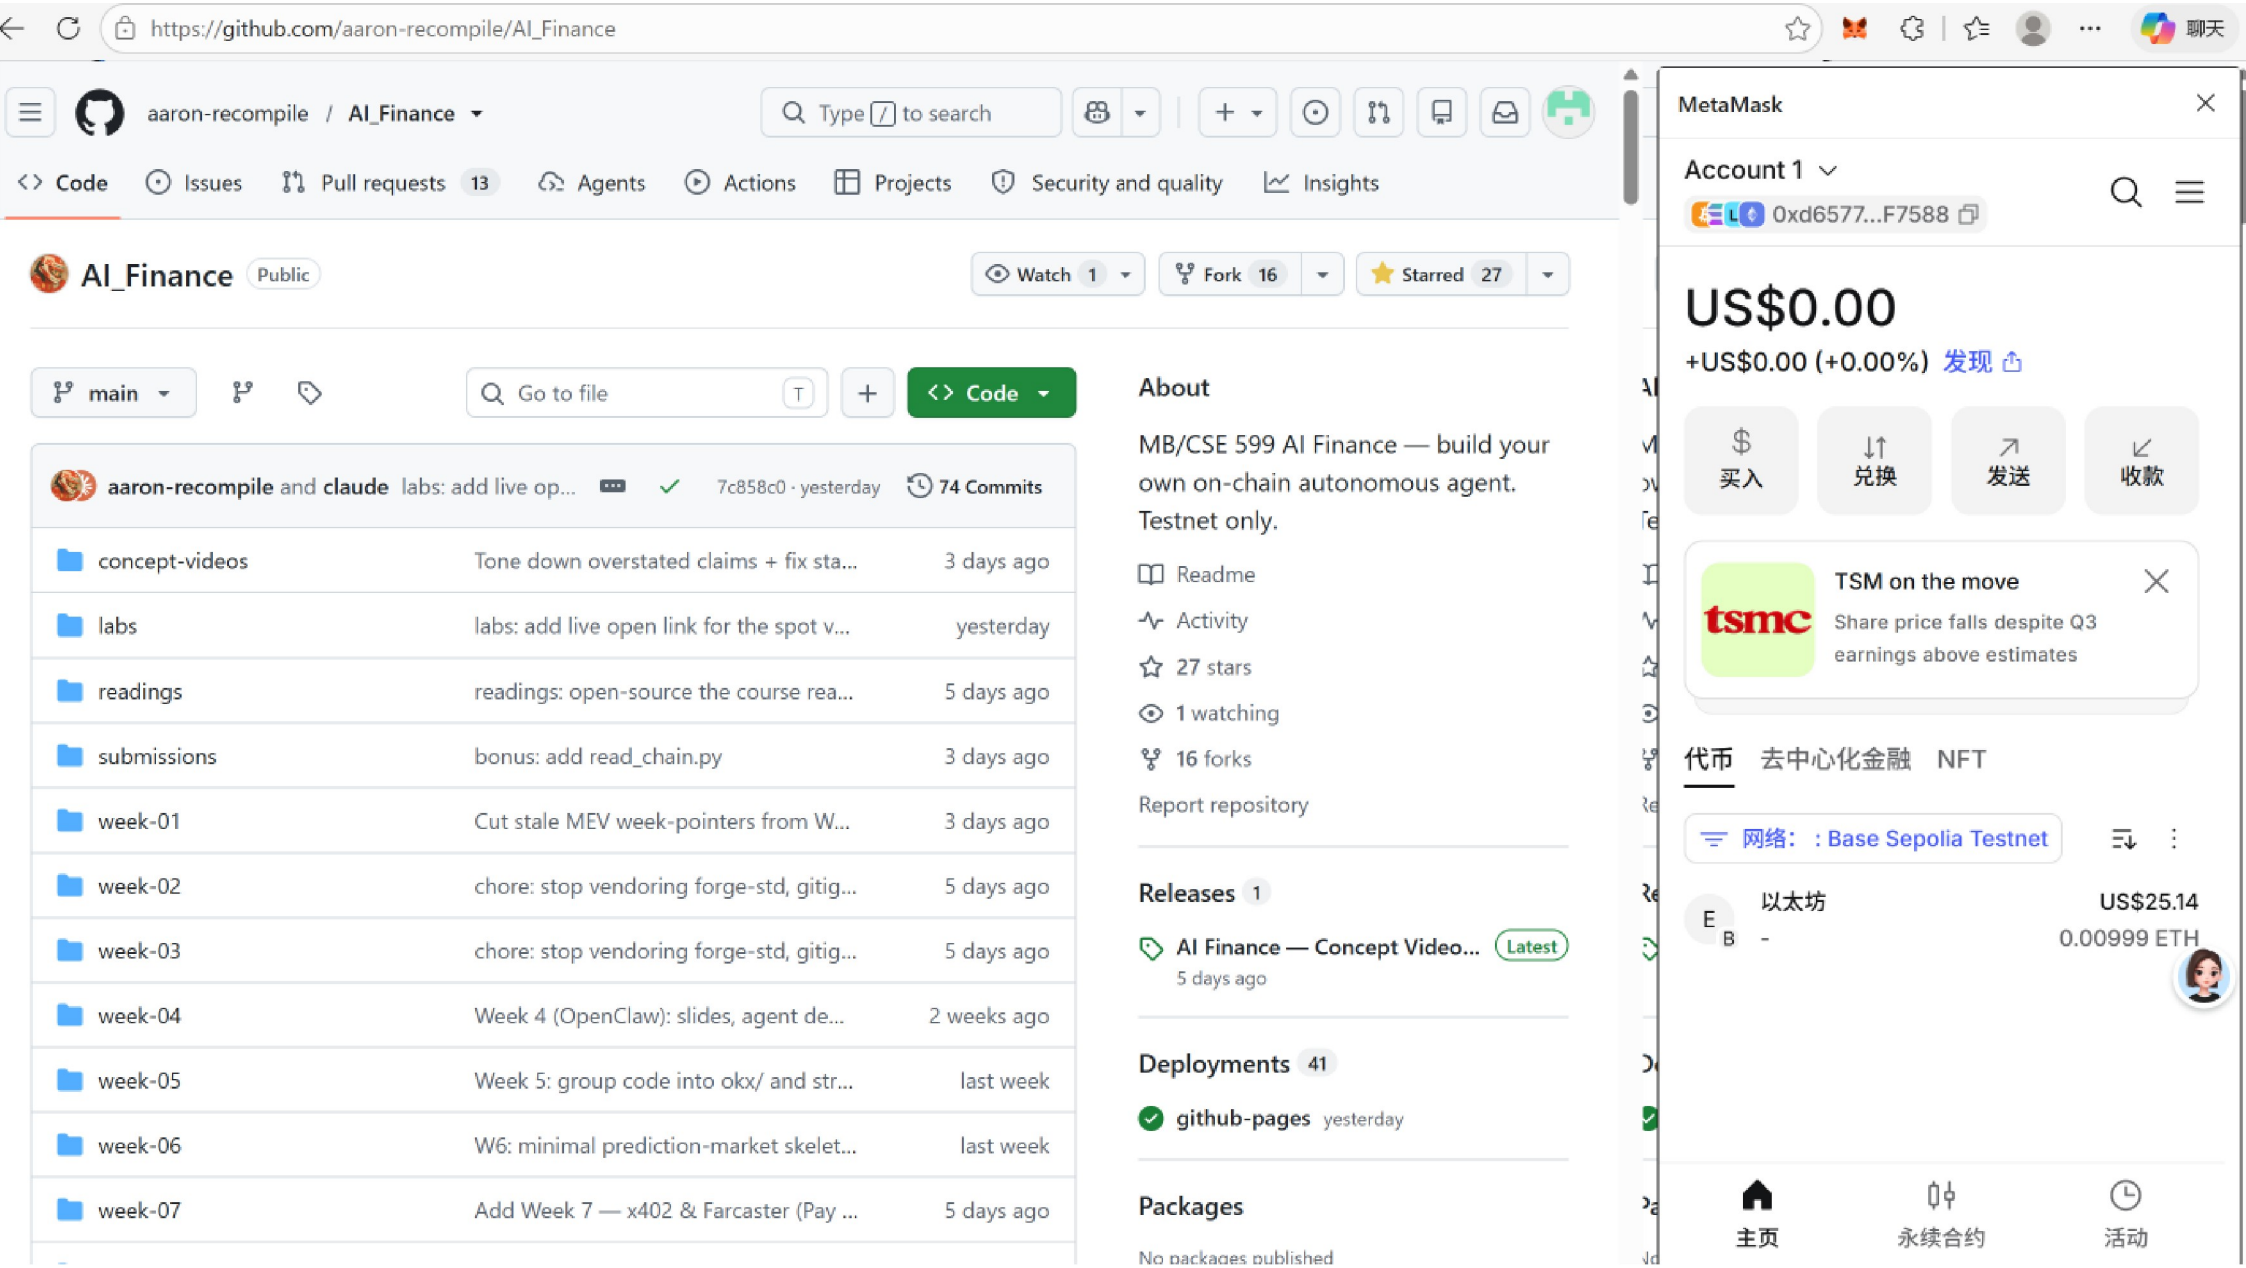

✗ not profitable — the tx would revert (you'd lose only gas). Lower the amount.

**Run flash-loan arb (1 transaction)**

```
[16:13:05] 🎯 no profitable size — the gap is smaller than the fees (0.3% + 0.3% + 0.05%)
[16:10:02] 🎯 no profitable size — the gap is smaller than the fees (0.3% + 0.3% + 0.05%)
[16:09:51] connected 0xd6577071c229c0e0B373E111fA7A862E844F7588
connect a wallet on Base Sepolia to begin.
```

Bot owner (CSTU) profit wallet

**4,390,938.88 tUSDC (0x6c57…24ec)**
